

# MixBuild 2018

MODERN TECHNOLOGIES OF DRY MIXTURES  
IN CONSTRUCTION

XIX INTERNATIONAL  
SCIENTIFIC  
AND TECHNICAL  
CONFERENCE

## Preliminary list of speakers\*

**Prof. Dr. Johann Plank**, Munich Technical University, Germany  
*Modern Additives for Gypsum Dry-Mixes*

**Luis Silva**, Chairman of Technical Committee, European Mortar Association, Belgium  
*European Trends of Drymix Mortar Industry Development*

**Roman Borisov**, Managing Director, Russian Union of Drymix Mortar Producers, Russia  
*Standardization of Drymix Mortar Industry in Russia – Current State and Development Prospects (topic is to be confirmed)*

**Prof. Dr. Sui Tongbo**, Vice President of China Sinoma International Engineering, China  
*Latest Progress of Belite-Calcium Sulfoaluminate Clinker Cement in China*

**Prof. Dr. Gwenn Le Saout**, IMT Mines Alès, Materials Center (C2MA), Alès, France  
*Phase Assemblage in Calcium Aluminate Cements: a Review*

**Dr. Claude Celotto**, Global Business Development Construction, Omya AG, Switzerland  
*Outlook beyond Common Borders - Innovative Use of Fine & Ultrafine Ground Calcium Carbonate in Cementitious Systems*

Organizer: International analytical review  
"ALITinform: Cement. Concrete. Dry mixtures"  
Tel. +7 (495) 580-54-36, +7 (812) 335-09-92 [sub@alitinform.ru](mailto:sub@alitinform.ru)

**Sabrina Galluccio**, Research Assistant, Martin-Luther-Universität Halle-Wittenberg, Germany

***Drymix Compositions and the Usage and Determination of Calcium Aluminate Cements and Supplementary Cementitious Materials***

**Boris Yudovich**, Technical Director, Intekhstrom AO, Russia

***Drymix Mortars based on Nano-Modified Cements***

**Dr. Funda Icenoglu**, Chief Engineer-Applied Research and Paint Group , Kalekim, Turkey

***Phase and Performance Development in Tile Adhesive Mortars in Relation to Application Temperature***

**Anna Korotkova**, Technical Expert, Technical Sales Support Group, Yuzhno-Uralskaya Mining Company, Russia

***Self-Compacting High Strength Fine-Grained Concrete in the Form of Dry Mixture***

**Sergey Araslankin**, CEO of Exponenta Ltd., Lecturer of Physical Chemistry Department of Ogarev Mordovia State University, Russia

***Modern Methods of Techno-Economic Optimization of Dry Construction Mixtures***

**Dr. Inna Koenig**, Lab Manager R&D, Sika Deutschland GmbH, Germany

***PCE's applications in CSA and Gypsum systems. Impact of Ca-hydroxide***

**Alexander Fedorov**, Director for Cement Production, Yuzhno-Uralskaya Mining Company, Russia

***Usage of Technogenic Materials in the Production of Clinkerless Cement***

**Anna Zemlyanskaya**, Technical Support Specialist, Bang & Bonsomer, Russia

***Defoamers of the "OUVRIE" company in the Dry Mixtures Production***

Organizer: International analytical review

"ALITinform: Cement. Concrete. Dry mixtures"

Tel. +7 (495) 580-54-36, +7 (812) 335-09-92 [sub@alitinform.ru](mailto:sub@alitinform.ru)

**Evgeny Tretyakov**, Sales Director, Europolymer, Russia  
*Competitive Advantages of Packaging Technology with STRETCH HOOD Film*

---

**Dr. Juergen Oecknick**, Managing Director, PSA Zurich Area GmbH, Switzerland  
*Manufacturing of screeds and floors in housebuilding*

---

**Roland Friedel**, Technical Sales, SE Tylose GmbH & Co.KG, Germany  
*Using Carbonate Sand Instead of Quartz Sand in Ceramic Tile Adhesives - A Drawback or Benefit?*

---

**Dr. Jean Yves Petit**, Product development manager, Organik Kimya, France  
*Designing a Powdered Polymer for Tile Adhesive Mortars: Role of PVA Molecular Weight and Anti-Caking System on Mortar's Mechanical Properties*

---

**Lev Dobshits**, Professor, Department of Building Materials and Technologies, Russian University of Transport (MIIT), Doctor of Technical Sciences, Academician of RIA  
*Increasing the lasting quality of concrete, prepared on the basis of dry mixtures*

---

**Dmitry Gureev**, General Director, Brozeks LLC, Russia  
*The experience of creating a production and logistics complex in the dry mix market of the Russian Federation*

---

**Ivan Romashkov**, Executive Director, New World Chemical Holding, Russia  
*The usage of modifying additives for the dry mixtures production of the chemical holding New World in modern realities*

---

\* The list is subject to change
